Alpha acceptance test

Functionality

1. pathing for the file is very odd, D:\School\CS2450\Emp_Trak_V8\Emp_Trak_V8\Emp_Trak_V8
2. Edit employee page
   a. Empty spaces are considered valid entries for most fields
   b. It allows me to update an employee without certain information, but it has a constant message telling me that I am missing information
   c. I can type letters, symbols, and negative numbers in fields like hourly wage
3. Add employee
   a. same as edit employee
4. Can edit a deactivated employee
5. Need to enter a commission rate and salary even if the employee is paid hourly
6. if you put a big enough number into the pay then in the pay log it will say "inf" or "-inf"(fun fact) also is very slow
7.

Bugs

1. Deactivated employees are still included in the payroll – 4/14/2022
2. Can pay someone negative money – 4/14/2022
3. Employee ID 7 isn't on the payroll – 4/14/2022python
4. After trying to login with an incorrect ID and then immediately logging in with a proper ID, the "Incorrect ID" flashes whenever I change tabs. Same if I type in the incorrect password. – 4/14/2022
